MORE AIR!

A SERIES OF PRODUCTS WITH
RECORD CONTENT OF OXYGEN
COMPLEX AND COPPER TRIPEPTIDE

FABERLIC

THE POWER OF OXYGEN

Oxygen is the source of not only life on Earth, but also the beauty of our skin! It is he who activates cellular metabolism and triggers the production of adenosine triphosphoric acid (ATA) — the main source of energy for skin cells and the entire body as a whole. And due to ATA, the natural synthesis of hyaluronic acid, elastin and collagen occurs, which means the aging process slows down, and your face takes on a rested appearance. And with a lack of oxygen, skin becomes drier and duller, fine wrinkles appear.

FABERLIC

A GULP OF FRESH AIR

in the balm Legendary Oxygen

FABERLIC

The formulas of the series are based on a unique combination of the Aquaftem® oxygen complex, the copper tripeptide and arginine supermolecules

How does skin breathe?

Oxygen enters its deep layers in the same way as other organs - from the blood. However, it gets it according to the residual principle: in case of deficiency, the vital systems of the body will receive it first. The outer layer of skin, epidermis, has no blood vessels. This means that oxygen can get into it only from the air or from cosmetics.

FABERLIC

AQUAFTEM® OXYGEN COMPLEX

Aquaftem® — transdermal oxygen conductor. This is a patented microemulsion of perfluoroorganic compounds, the effectiveness of which has been proven by numerous scientific studies and clinical practice.

- Saturates tissues with molecular oxygen
- Supports the synthesis of collagen, elastin, hyaluronic acid and chondroitin
- Facilitates the penetration of biologically active components into skin
- Stimulates skin cell renewal, accelerating regeneration processes
- Heals microdamages, reduces appearance of wrinkles and smoothes skin
- Evens out skin microrelief and improves complexion
- Provides intense moisturizing

COPPER TRIPEPTIDE

Copper tripeptide found in the cells of body and is a regulator of many physiological processes. This is one of the most effective anti-aging components: it stimulates collagen synthesis and the growth of epidermal stem cells, and is also able to activate the process of skin remodeling.

- Accelerates skin cell renewal
- Reduces appearance of fine lines and wrinkles, improves skin elasticity and firmness
- Has antioxidant properties and protects skin from environmental stress
- Promotes wound healing and reduction of scars, has an anti-inflammatory effect

ARGININE

Arginine triggers active collagen synthesis, increases elasticity of skin, improves blood microcirculation.

- Penetrates into deep skin layers and cleanses protein breakdown products, improving complexion
- Stimulates regeneration processes and restores skin
- Eliminates microdamage, fights wrinkles and makes skin smoother

FABERLIC

MULTIFUNCTIONAL OXYGEN BALM

Art. 3529

- An effective SOS remedy in any situation: relieves itching after insect bites, accelerates skin healing for burns and other skin injuries
- Instantly moisturizes skin and prevents dehydration, enhances barrier properties, and gives a feeling of comfort
- Improves effectiveness of other cosmetic products
- Activates natural renewal processes, bringing dry and dull skin back to life

Saccharide isomerate provides quick and long-lasting moisturizing even in extremely dry areas: acts as a magnet for water, attracting and retaining moisture in the stratum corneum of skin. Reduces itching and flaking.

D-Panthenol accelerates regeneration process, soothes skin, relieves inflammation, restores damaged skin.

FABERLIC

OXYGEN FACIAL MOISTURIZING CREAM

Art. 3533

- Quickly and lastingly moisturizes skin
- Supports optimal hydrobalance
- Gently cares for skin and provides a long-lasting feeling of comfort
- Smooths out a network of fine wrinkles caused by dry skin
- Gives back face rested look

Cholesterol — one of the most important natural lipids of skin. Along with ceramides and fatty acids, it maintains the protective barrier and deeply moisturizes skin.

Biophilic Complex strengthens the barrier function of skin, increases bioavailability of other active ingredients, makes skin smoother.

FABERLIC

OXYGEN NOURISHING FACE CREAM

Art. 3532

- Provides intense nutrition to skin and increases its elasticity
- Saturates skin with all necessary substances, makes it softer and gives a feeling of comfort
- Eliminates dryness and fights flaking
- Smooths wrinkles and prevents formation of new ones
- Improves complexion

Squalane prevents moisture loss, smooths wrinkles and creases caused by dry skin. Evens out skin tone and microrelief, strengthens skin's lipid barrier, provides antioxidant effects and accelerates skin regeneration.

Cholesterol enhances protective function of skin, restoring its lipid layer. Promotes moisture retention, makes skin smoother and more elastic.

FABERLIC

OXYGEN EYE CREAM

Art. 3530

- Strengthens delicate skin of eye area and provides it with intensive care
- Reduces dark circles and puffiness, smoothes fine wrinkles around eyes
- Provides a noticeable lifting effect
- Accelerates natural renewal and recovery processes

Caffeine improves microcirculation, increases vascular tone and protects skin cells from damage. Improves synthesis of lipids that form skin's protective barrier, making it firmer and more elastic.

Squalane — natural skin component. Retains moisture in skin cells restoring hydrobalance. Smoothes out fine wrinkles and reduces uneven tone. Protects skin from free radicals, slowing down the manifestation of age-related skin changes.

FABERLIC

RESTORING ACTIVE SPRAY

Art. 3671

- Express product for additional skin care at any time of the day
- Instant effect: instantly moisturizes, refreshes and tones up skin
- Eliminates signs of fatigue
- Suitable for face and body
- Can be used over makeup

Saccharide isomerate — to 100% natural and plant origin component. Provides quick and long-lasting moisturizing. Returns energy and healthy glow to dull and dry skin. Reduces flaking and itching.

D-Panthenol accelerates skin regeneration, normalizes metabolic processes in cells, relieves inflammation, soothes irritated or damaged skin. Increases skin elasticity and firmness.

FABERLIC

OXYGEN FOAM WASH

Art. 3351

- Gently and effectively cleanses skin without drying it out
- Removes impurities and makeup from face, eyes and lips
- Gives freshness, does not cause a feeling of tightness and dryness
- Improves oxygen absorption by skin, prepares it for subsequent care

Soft surfactants prevent skin irritation and provide gentle cleansing without overdrying.

Panthenol gently cares for skin already at the washing stage, significantly softens it and accelerates natural recovery processes.
