MOMS TRUST

MARIYA KULIKOVA
Candidate of Medicine, Pediatrician, blogger, mom of two kids

"I see growth of number of allergy patients like other people around the world. One of the causes is kids hygienic products with "overloaded" compositions. In this case, the following rule works efficiently: less is better. Every ingredient of recipe is a potential allergen, that is why baby hygiene should be based only on the most necessary and safe components for babies.

Number of care products also should not be excessive. Delicate cleansing, moisturising and diaper cream should be enough."

Umoo

MOMS TRUST

YEKATERINA BESPYATYKH

Faberlic Pr Director, mother of many children

"I have three kids and like for any other mom, it is important for me that kids makeup is safe, hypoallergenic and verified.

When Faberlic announced launch of a new series for the smallest ones, I was very enthusiastic about this event since I trust our company!

Our family liked Umoo pack at once. Kids like delicate pack and my husband and I like good composition."

MOMS TRUST

AYGERIM ALIBEKOVA
Faberlic Elite Director,
mother of many children

"I am a working mom of four kids. I don't think I would manage doing everything I have to if I didn't have those diapers! They not only provide comfort to your baby, but allow you to save a lot of time!

What do I pay my attention to when choosing diapers? It's important that material is soft and transpirable, and diapers are thin, do not cause allergy and retain moisture.

I have found all these in Umoo diapers. Perfect quality! I recommend them with pleasure!

EXPERT

Rimma Korneeva

Chief expert of FABERLIC Scientific Development Centre
Dermatologist and Cosmetologist, Candidate of Medical Science

Retinol (Vitamin A)

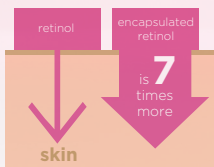

one of the best anti-age ingredients. But despite all of its benefits it has several side effects: dryness, redness, flakiness. We have found the way to minimise side effect of retinol.

In Retinol Like day cream

we have used an effective natural analogue of retinol that won't irritate even very sensitive skin.

In Retinol Pro night serum

retinol is placed into "smart" capsule of aimed action that penetrates into your skin and activates rejuvenation effect. The capsule brings to your skin more retinol. Combination of day cream and night serum ensure prolonged lifting effect, makes your skin tight and smooth.

Recommended course is not less that 28 days.

TOOLS

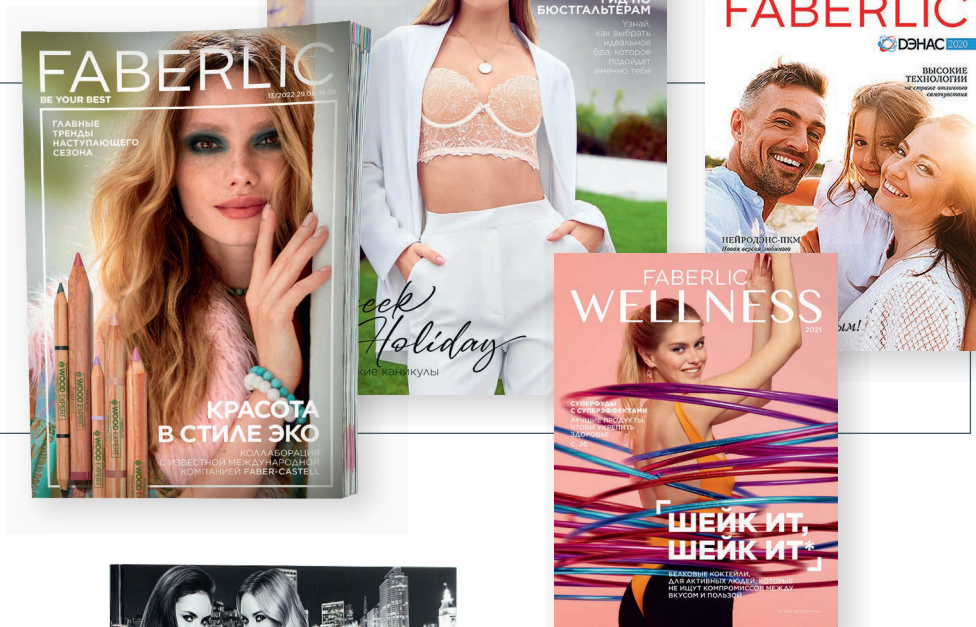

Gift bags

If a customer has placed a large order with you, pack it into a gift bag. Such attention will be pleasant to your client, and he will definitely come back for another purchase!

Corporate materials

Corporate materials - product brochures, catalogues and price lists will help you navigate through the product range and tell your customers important information about it.

Product samples

An important sales tool is a product sample. They give client an opportunity to determine which product suits them more accurately, and thanks to it, you will look more professional and increase your sales. Please note that samples are not only for perfumes, but also for other products.

Tone Maps

Suggest customers that buy Silk Colouring, Botany or Maximum colour hair dye from you, referring to tones map (art. 8249, 8769 or 18053). Having determined shade more accurately, customer will definitely return to you during the next promo!
