PERFUMES & TRENDS

BRIGHT, FRAGRANT, WITH TASTE!

NATALIYA ESHKININA,
BRAND DIRECTOR
OF THE PERFUMERY
DEPARTMENT

THE WORLD OF FRAGRANCES is constantly evolving. Every decade, certain notes rise to the peak of fashion. Previously, this was associated with chemical discoveries.

Today, when almost any molecule can be created in the laboratory, trends in the world of fragrances reflect social trends, which we express in unique concepts and stories of our perfumes.

1 ECO COURSE

Living in harmony with nature is an agenda that cannot be ignored. In this context, environmentally friendly packaging, recyclability, and "correct" compositions are important. Our It's Clear perfumes are created with love for the planet.

2 ATTRACTANT MOLECULES

Attractants are substances that attract the opposite sex. Until recently, perfumes used a maximum of 1-3 attractant molecules. Faberlic has moved on! We created Amoredisiac - the first fragrance that contains 5 molecules of attraction at once. It 100% reveals female sexuality. Musky, with subtle floral accents, it does not shout about itself, but whispers languidly. And a whisper is always more erotic than a scream.

4 ARTIFICIAL INTELLIGENCE

Back in 2021, Faberlic released the first fragrance created together with a neural network. A robot named Doctor Nose worked on the composition. Based on marketing research, trends and his own preferences, he chose perfume notes. Of course, then the perfumer had to work with this selection, because for now only a person can breathe soul into a composition thanks to your experience and live emotions, where true beauty is revealed.

2 APPEAL TO YOUR OWN "I"

Meditation practices and personal development training are at the peak of popularity! One of the common philosophies says: harmony must be sought not outside, but inside, in your heart. The aroma of Shanti teaches you to hear yourself, love the world in all its manifestations and be happy, no matter what. Contains Dzen complex, which has a proven calming effect. All that remains is to catch this wave of peace.

MAKEUP ARTIST SCHOOL

With age, skin becomes drier and dull, wrinkles and age spots appear. **The purpose of lifting makeup** is to make skin more nourished and hydrated, so that it looks healthy and glows from the inside.

The main feature of anti-aging makeup is in the application. Let's act along massage ascending lines and apply the tone in an exceptionally thin layer with light tapping movements.

I recommend applying the foundation with a brush from the center of face to periphery. Don't forget to check your hairline and pay attention to your neck: be sure to tint these areas to avoid the mask effect.

We need concealer to hide minor imperfections and dark circles under eyes. It can be applied as a foundation and on top of it. We work on the inner corner of eye to refresh the look, and the outer corner to visually lift it.

We also apply concealer to the center of your forehead, nose bridge and outer lip corners.

JOINT DEVELOPMENT OF BIOTECHMARINE LABORATORIES (FRANCE) AND FABERLIC

UNLOCK MYSTERY OF THE OCEAN!

A group of French scientists have been observing the behavior of a marine mollusk, Aplysia, for many years. Their attention was drawn to an amazing fact: this creature is capable of surviving in the most extreme conditions: it lives in a huge thickness of water, where the sun's rays do not penetrate, where there is little heat, where there is practically no life, while Aplysia does not even have a protective shell! It turned out that this mollusk feeds only on brown seaweed Asparage. Scientists took note of this fact, conducted serious clinical tests and created, based on a unique sea plant that can prolong youth, active complex of the same name.

Faberlic laboratory has enriched this complex with "signature" oxygen and created the **Oceanum** series - luxurious products that trigger the impulse of youth and beauty.

Tools OF YOUR SALES

Gift Bags

If a client has placed a large order with you, pack it in a corporate gift bag. Such attention will please your client, and they will certainly return to you for another purchase!

Corporate materials

Corporate materials - product brochures, catalogs and price lists to help you navigate in the product range and tell your customers important information about it.

Product Samples

An important sales tool is product samples. They give a client the opportunity to more accurately determine which product suits them, and you look more professional and increase your sales. Please note that samples are not only for perfumery, but also for another products.

Color Charts

Offer your customers that buy Silky Coloring or Color Maximum dyes from you to refer to Color Chart (art. 8249 or 18053). By more accurately determining dye shade, the client will definitely return to you during the next promo!
