What is Quiet Luxury?

Feature of the season's main trend
is emphasis on natural, well-groomed,
and elegant look. No bright accents:
only an aristocratic, thought out look.

Combination of minimalism and chic -
that's all about makeup in the Quiet Luxury
style. You won't need a bulky makeup
bag. The main accent of this look is
lipstick with a noble matte finish.

Three application methods: choose your own

• Classic

Apply an even layer of lipstick, creating a precise contour using convenient applicator to add a luxurious, collected look.

• Expressive

For a more lasting and vibrant look, first highlight shape of your lips with a pencil and only then use lipstick.

• Natural

For the kissed lips effect, spread lipstick with your fingertip and blend with light movements.

After 1-2 minutes, the lipstick "sits" on your lips and becomes completely matte
