ABSALYAMOVA,**

DIRECTOR
OF OXYGEN
COSMETICS
DEPARTMENT

THE CHINESE CRISIS CHARACTER CONSISTS OF TWO PARTS: DANGER AND OPPORTUNITY. THIS MEANS THAT WHEN ONE DOOR CLOSES, MANY OTHERS ARE OPENING UP. THE YEAR 2022 HAS CHALLENGED US, AND WE HAVE ACCEPTED IT.

Evolution INNOVATION

1 ASIA IS TRENDING

recent years, Asia is a supplier of all of the most innovative cosmetic trends.

It is not surprising that we have been directing the search vector for high-tech ingredients to the East for more than five years. In search of new ideas, we travelled from Seoul to Singapore and from Istanbul to Bangkok. So your favourite K-beauty (Beauty in Korea) and J-beauty (Beauty in Japan) products appeared in our assortment. In this catalogue of innovations and trends, we present two series created with an eye to Asian technologies. This is the Miss Skinni series — light facial products with a serious effect, and Hamigaki toothpastes inspired by the Japanese art of brushing teeth.

2 INNOVATIONS IN A NEW ENVIRONMENT

Effectiveness of Faberlic cosmetics since their inception has been determined by the main innovation—oxygen complex, which has always been produced in our country. It combines synergistically with other cosmetic ingredients.

We are glad that the number of projects that combine oxygen complex and Russian-made components is growing.

For example, in our new Omegahit series, vegetable oils from the Altai Territory, Stavropol, and Pskov Region have become sources of valuable omega acids. In these unpredictable times we have made domestic innovations as accessible as possible.

This allows us to not only make products of high quality, but also keep affordable prices for our products.

MORE THAN
5000000
PIECES OF OXYGEN BALM HAS BEEN
SOLD DURING THE EXISTENCE OF THIS
PRODUCT

3 CHOICE OF MILLIONS

Faberlic — it's not just a cosmetics brand. This is a community of caring customers who love our products and always meet new products with interest. It is valuable for us that we can communicate closely with Leaders and Representatives.

Last year, you became co-authors of one of the most successful project. Natural substances that have won your sympathy, formed the basis of shampoos, shower gels, creams and toothpastes.

We, in turn, are preparing an educational novelty for you — navigation tools in our extensive assortment, they will appear this year. The first guide to oral care products can be downloaded using the QR code on this page.

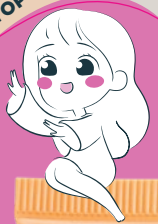

**RIMMA
KORNEEVA,**
CANDIDATE
OF MEDICAL
SCIENCES,
SENIOR EXPERT
OF SCIENTIFIC
RESEARCH CENTER

AT the heart of Faberlic's DNA is the great discovery of Russian scientists. More than 50 years ago, the world's first artificial blood substitute, perfortan, was created in the Institute for Theoretical and Experimental Biophysics of the Russian Academy of Sciences. More than 40 Soviet scientific institutions, 13 departments and ministries worked on its creation. The new drug has successfully passed all clinical trials, and for decades perfluoro compounds have been successfully used to save lives and treat a variety of diseases.

In 1995, Faberlic patented the use of this unique substance for the development of oxygen cosmetics. Since the foundation of the company, the oxygen complex based on "blue blood" is part of most of our products, enhancing effectiveness of each ingredient.

We were the first to test the results of scientific and medical research - for example, in the field of peptides - to create cosmetics. We constantly and deeply study the needs of skin and always find innovative assets that will help give your skin what it needs-but right here and right now."

SOURCE OF OXYGEN

CONTAINS MAXIMUM CONCENTRATION OF NOVAFTEM-O₂[®] COMPLEX.

LEGENDARY PRODUCT based on a patented technology to deliver oxygen to the deeper layers of the skin for its self-renewal. Since the first balm was launched, more than 1 million have been sold! By refining the formula year after year, we've achieved superlative efficacy. Every year we perfect the formula and have achieved superefficiency due to the combination of three ingredients: Novaftem-O₂[®] Complex, vitamin C and glutathione.

OF HYALURON
ACIDS

- INTENSIVELY MOISTURISES YOUR SKIN
- PROVIDES INSTANT LIFTING
- GIVES YOUR SKIN A FRESH LOOK
- MELTING GEL TEXTURE GIVES COMFORT

BEAUTY CONCENTRATE

THE FORMULA OF INNOVATIVE MOISTURISING - HYALURONIC ACID, CALCIUM AND VITAMIN K2 - IS CONCENTRATED IN THIS PRODUCT.

WHY EXACTLY THESE THREE INGREDIENTS? With a lack of hyaluronic acid and calcium, the skin becomes thin and wrinkled. It is important to compensate for the lack of these substances. And for them to be better absorbed,

encapsulated vitamin K2 is needed. Supplementing the composition with an oxygen complex, we got innovative products with a stunning effect: the skin retains moisture, it becomes firm, elastic and supple.

NO PAUSES IN BEAUTY

A SERIES FOR SKIN WITH SIGNS OF ESTROGEN DEFICIENCY DURING HORMONAL AGING. COMPENSATES FOR THE SLOWING DOWN OF THE SELF-HEALING MECHANISMS OF SKIN DURING POST- AND MENOPAUSE.

The anti-pigmentation cream contains a combination of **lightening active molecules in a bioavailable form**. They effectively regulate the production of melanin, the pigment responsible for the formation of unwanted spots. It helps to lighten the skin not only on the surface but also in the deep layers. It combats age spots and spots of inflammatory origin. Clinically proven: **the area of age spots is reduced by 17%** after a month of using the cream.

ALEXANDER KAZANSKY,
expert of Scientific
Research Centre

"Sunscreens are one of the most technologically sophisticated products; in a number of countries they even belong to pharmaceuticals and are under strict control.

Sunscreen should reliably and safely protect against all types of solar radiation: both UVB rays and UVA much more dangerous for your health.

The number next to SPF shows the degree of protection from UVB rays. And the marking with UVA letters, which you can find on all LETO products, means that UVA protection factor in our creams comply with strict international regulations.

The effectiveness of the series has been repeatedly confirmed by independent institutions."

- EFFECTIVELY ABSORB DIRT AND GREASE
- REFRESH HAIR AND ELIMINATE UNPLEASANT ODOUR
- INSTANTLY GIVE A BASAL VOLUME

CLEAN HAIR WITHOUT SHAMPOOING

THE TREND FOR DRY SHAMPOOS IS DUE TO AN ACUTE LACK OF TIME WHEN IT IS NOT POSSIBLE TO WASH YOUR HAIR, AS WELL AS TO SAVING WATER.

Time drains away like water. And dry shampoos save both! These products are compact and are a godsend for those who "live on the run". Simply take the

dry shampoos with you and refresh your hair whenever you want. In the car, at the office, before an important meeting, it's always easy to "wash your hair".

Tools for YOUR SALES

OFFERS
for Representatives

Gift bags

If a customer has placed a large order with you, pack it into a gift bag. Such attention will be pleasant to your client, and he will certainly return to you

Corporate materials

Corporate materials are product brochures, catalogues, and price lists will help you navigate through product range, and tell important information about it to your customers.

Product Samples

Product Samples are an important sales tool. Customers are suggested to understand which product suits them best, and you look more professional and boost your sales. Pay attention that there are samples not only for perfumes, but also for other products.

Tone maps

Offer your customers that buy Silky Colouring or Colour Maximum dyes to refer to tone map (art. 8249 or 18053). Having determined colour tint more precisely, the customer will definitely come back to you during the next promo!

BE YOUR BEST

How to order catalogue №06/2023 (17.04 – 07.05)

To get the catalogue add it
to order **90106**.

Prices, promos, and special offers specified
in catalogue are valid only with a purchase
at faberlic.com from 17.04 to 07.05.2023.

Possible cost change and product availability.
Specify updated prices at faberlic.com,
from representatives, and at Internet-platforms
where company is presented officially.
