HAND AND FOOT CARE

Do you know that hand skin ages the fastest? Palms are one of the driest surfaces of our body, and skin on the back of them is much thinner than on face. In addition, skin of hands is constantly exposed to negative factors of environment: cold, dry air, ultraviolet radiation, household chemicals. Cream with panthenol and wheat germ oil will help to avoid negative consequences. With regular care, skin of your hands will retain smoothness, softness and youth for a long time!

Our feet sometimes endure a lot of stress from walking, running, our body weight for hours. That is why it is so important to provide them with proper care. Moreover, it will not take much time if you turn this activity into a daily habit. Foot care is so easy with the new cream with beeswax and menthol!
