Your sales TOOLS

OFFERS
for Consultants

Gift bags

If a customer places a large order with you, pack it in a corporate gift bag. This kind of attention will please your client, and he will certainly return to you for a purchase!

Corporate materials

Corporate materials - product brochures, catalogs and price lists will help you navigate in the product range and tell your customers important information about it.

Product samples

An important sales tool is product samples. They give a client the opportunity to more accurately determine which product is suitable for them, and you look more professional and increase your sales. Please note that samples are not only available for perfumes, but for products as well.

Color charts

Suggest customers that buy Silky Coloring or Color Maximum dyes from you to refer to color chart (art. 8249 or 18053). Having more accurately determined the shade of dye, a client will definitely return to you during the next campaign!
