AMOREDISIAC

Attractolide

Exaltolide

Ambrox Super

Romandolide

Muscon

ATTRACTANT MOLECULES\*

Attractolide has an intimate sound and adds depth to the perfume.  
Exaltolide introduces a sensual powdery note. Ambrox Super fills the composition with warmth.  
Romandolide is delicate and enveloping, evoking desire.  
Muscon sounds incredibly feminine in tone.

*\*Substances of the musk family that cause attraction to the opposite sex.*

# Tools OF YOUR SALES

## Gift Bags

If a client has placed a large order with you, pack it in a corporate gift bag. Such attention will please your client, and he will certainly return to you for another purchase!

## Corporate materials

Corporate materials - product brochures, catalogues and price lists to help you navigate through product range and tell about it important information to your customers.

## Product samples

An important sales tool is product samples. They give the client the opportunity to more accurately determine which product suits them, and you look more professional and increase your sales. Please note that samples are not only for perfumes, but also for another products.

## Tone Maps

Offer your customers that buy Silky Colouring or Colour Maximum from you to refer to Tone Map. (Art. 8249 or 18053). By more accurately determining the shade, the client will definitely return to you during the next campaign!

# BE YOUR BEST

## How do I order catalogue №07/2023 (08.05 – 28.05)

To get a catalogue  
add it to your order: **90107**.
