EXPERT

MARINA EFREMOVA,
brand director,
Hair Care
category

We gladly represent our improved line of Expert hair dyes! Your favorite dyes have improved their formula and get new trendy shades. They are still good in coloring gray hair, and the color lasts even longer for weeks. A complex of innovative ingredients, including biotin the vitamin of beauty and hair health helps keep color intensity and hair quality.

Our new shade palette retains all the most popular shades and adds 10 new ones, selected in accordance with the latest market trends and the needs of our customers.

For example, shade number 9.86 contains a trendy pink pigment that evens out the yellowing of hair, refreshes the image and helps you get the current strawberry blond. And for those who love darker tones, we have added a noble Chocolate shade to our palette, which is tone number 5.87, as well as other interesting shades that are guaranteed to delight you. After all, spring is the time of changes! Change you look!

Lightens hair up to 7 tones using the Ultrablond technology. Allows maximum lightening of natural or colored hair, suitable for any original tone.

The included CARE CREAM deeply revitalizes the hair

р. 6-7

NATALIA POZDNYAKOVA,
Chief process engineer, Hair Care category

Few people know that hair dye is a complex product that undergoes extremely rigorous control: both on the part of certification bodies, and internally, in the manufacturing process.

The new formula of our cream color is the result of a long and laborious analysis and selection of ingredients. This allowed us creating our unique color booster. This helps the colorant deeply penetrate into the hair shaft and stay on the hair as long as possible.

Moreover, we have improved the texture of the color: it has become softer, creamier, and more plastic. And for the first time we also used a delicate floral fragrance in our color formulations. So now the coloring process will be even more pleasant!

17 PROPERTIES IN THE SAME BOTTLE

Smooth and soft hair

Damage repair

Thermal protection

Easier combing and styling

Elimination of brittleness

EKATERINA ABSALYAMOVA,
Director of the Oxygen Cosmetics Department

My favorite among global trends is multifunctionality. Compact products help preserve valuable time in a busy lifestyle. They also use less plastic and water to produce, which is very important for the environment.

The cream spray is the perfect match to this trend: 17 hair needs in one bottle! Now you don't have to use a lot of intensive care products to keep your strands looking their best all you need is this one. It will make sure your hair is easy to comb, smooth, and shiny!

BIOACTIVE SVERTSIAMARIN
BIOACTIVE SVERTSIAMARIN
FROM THE LEAVES OF INDIAN
GENTIANA VISIBLY REDUCES
WRINKLES IN JUST ONE WEEK

ALYONA LOGUNOVA,
*brand director,
Skin Care category*

Medical achievements inspire the creation of unique cosmetic ingredients. For example, the study of skin regeneration mechanisms by activating the skin's own stem cells has opened up new opportunities for our research.

Scientists have found a component that influences the skin's stem cells and triggers its regeneration, smoothing out even complex vertical wrinkles in as little as seven days.

It's svertsiamarin, derived from the leaves of the Ayurvedic plant Svertsia Chirata and it's the basis of the One Week Miracle series.

And to make the anti aging complex even more effective, we've added a Swiss award winning 5 amino acid biomimetic peptide. It stimulates skin renewal, evens skin tone, and restores density, literally erasing the signs of aging!

TATYANA BARANOVA, Ph.D. in Chemical Engineering, Leading Innovation Manager

Many any skin processes are interconnected, so deficiencies in some substances can lead to deficiencies in others. To start a chain of actions, we need a complex of components rather than individual ingredients. This is the principle behind HyaluronCa. We have combined 3 key ingredients. The first one is hyaluronic acid to deeply moisturize all layers of the skin. The second is calcium. Few people know that the skin hydrobalance cannot be maintained without calcium. Calcium ions stimulate the production of hyaluronic acid and strengthen the skin barrier. With aging, the amount of calcium ions decreases, so it is important to get additional calcium ions. A natural regulator of calcium levels is vitamin K2, the third element in our complex. Together, they provide the skin with powerful hydration and maintain its elasticity.

SOURCE OF HYDRATION. SOURCE OF YOUTH

EKATERINA ABSALYAMOVA,
Director of the Oxygen Cosmetics Department

The Expert Pharma series for the professional dental care addresses all oral problems. Each product contains highly concentrated active ingredients enhanced with the oxygen complex Novafem-O2[®], and targets specific problems.

Studies of the Institute of Stomatology of SechenovMoscow State Medical University have shown that White Freeze toothpaste lightens teeth up to 4 tones in just 14 days, and Total Repair paste increases the amount of hydroxyapatite in the enamel by 225% in 10 days while increasing resistance to dental cavities.

This data is the basis for two Faberlic patents of which we are particularly proud.

EKATERINA ABSALYAMOVA, Director of the Oxygen Cosmetics Department

Immediately after its launch, the Umoo range won the Moms' Choice Award. We understand that finding products for baby is one of the most important tasks of every mom, and there are few arguments. That's why all this time we have been conducting a clinical study with the youngest testers under the strict supervision of a doctor.

And now we gladly announce that the series has been officially approved by the Center for Maternity and Childhood of Sechenov University! Specialists have confirmed that our products are highly effective, maintain the optimal condition of children's skin and improve its parameters and improve its moisturization.

Tools of YOUR SALES

OFFERS
for consultants

Gift Bags

If a customer ordered a lot, pack it in a corporate gift bag. Such attention will so pleasant that he or she will surely come back to you for the next purchase!

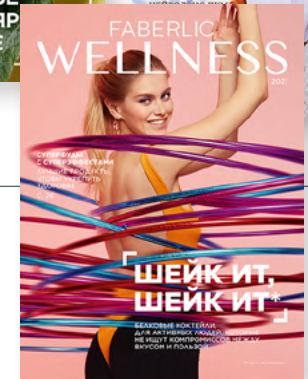

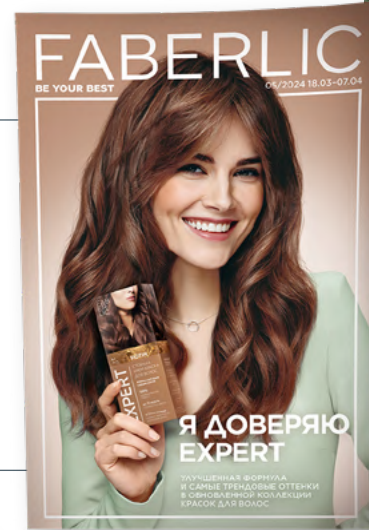

Corporate Materials

Corporate materials such as product brochures, catalogs, and price lists will help navigate product range and tell your customers important things about products you offer.

Product Test Samples

Product samples are an important sales tool. They allow customers to select the best product for them more accurately, make you look more professional, and help you boost your sales. Note that there are samples not only for fragrances, but also for other products.

Tone Maps

For customers who buy your Silk Color or Maximum Color hair dye. The color chart (item 8249 or 18053 respectively). By identifying more precisely the dye shade, the customer will be sure to come back to you for their next campaign!

BE YOUR BEST
