# Tools OF YOUR SALES

SUGGESTIONS  
for Independent  
Consultants

## Gift bags

If a customer has placed a large order with you, pack it in a corporate gift bag. Such attention will be pleasant to your client, and he will certainly return

## Corporate materials

Corporate materials — product brochures, catalogs and price lists will help you navigate in the product range and tell your customers important information about it.

## Product samples

An important sales tool is product samples. They give the client the opportunity to more accurately determine which product suits him, and you look more professional and increase your sales. Please note that there are not only samples for perfumes, but also for other products.

## Tone Maps

Customers who buy Silk Coloring hair dye or Maximum color from you, suggest referring to the tone map (art. 8249 or 18053). Having more accurately determined the shade of dye, a client will definitely come back to you in the next campaigns!
