ALYONA LOGUNOVA,  
Brand Director  
of the Skin Care category

I know everything about skin care not only because cosmetics is my job, but because I am a woman. It is important for me to find products that will delay appearance of obvious signs of aging and will work immediately in several directions. That's why I choose Renovage with a new complex of peptides.

We have improved the formulas of products taking into account modern discoveries and kept familiar textures and favorite aroma. Now they are based on 5 innovative peptides that significantly improve the condition of mature skin and play a key role in increasing its elasticity, firmness and moisture.

Try new things, because skin care from Faberlic is always in your favor!
