TIME GOES ON. COLLAGEN STAYS ON

A SERIES DESIGNED TO REPLENISH THE PROTEIN OF YOUTH IN THE SKIN

1381
~~600P~~ **299P**

CLINICALLY PROVEN:
209% TO SURFACE OF WRINKLES HAS REDUCED

175% TO NUMBER OF WRINKLES REDUCED

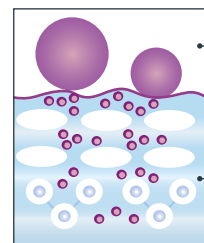

62% TO CELL ACTIVITY INCREASED AFTER PHOTODAMAGE

INNOVATION BY FABERLIC LABORATORY

Collagen is a protein of youth: this is what makes the skin firm and tight. After the age of 20, the skin begins to lose collagen rapidly, and by the age of 40 it becomes especially noticeable. But Collagen O2 solves this problem by restoring its synthesis!

We took **collagen nanomolecules** (0.67 kDa*), which are able to penetrate into the deep layers

of the skin, and combined **with an oxygen complex** that targets them up to collagen fibers. This triggers the production of the skin's own milk protein. In addition, we have added **large and medium-sized molecules** (12-250 kDa*) of living collagen types I and III: they act on the surface and in the middle layers of the skin, strengthening its framework.

Large and medium molecules of living collagen (12-250 kDa*) act on the surface and in middle layers of derma.

Collagen nano-molecules (0.67 kDa*) penetrate into deep layers thanks to oxygen complex. There they activate production of their own collagen.

*Kilodalton (kDa) is a unit of measurement of molecule mass.

OF YOUR SALES

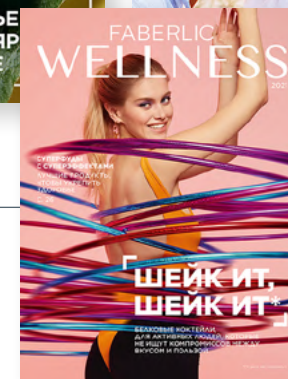

OFFERS
for Consultants

Gift bags

If a customer places a large order with you, pack it in a corporate gift bag. This kind of attention will please your client, and he will certainly return to you for a purchase!

Corporate materials

Corporate materials - product brochures, catalogs and price lists will help you navigate in the product range and tell your customers important information about it.

Product samples

An important sales tool is product samples. They give a client the opportunity to more accurately determine which product is suitable for them, and you look more professional and increase your sales. Please note that samples are not only available for perfumes, but for products as well.

Color charts

Suggest customers that buy Silky Coloring or Color Maximum dyes from you to refer to color chart (art. 8249 or 18053). Having more accurately determined the shade of dye, a client will definitely return to you during the next campaign!
