CREATE LOOK

Latte makeup is one of sensational trends of this year and a new variation of nude. The main thing in this look is shades. This is monochrome makeup in warm tones of brown or beige - like foam on your favorite coffee. The rest couldn't be simpler: an even tone and a light tanning effect, voluminous black eyelashes, lipstick of a suitable color scheme. That's all! Popular makeup is ready.

Life hack: if you don't have blush or bronzer within reach, use lipstick instead. Just apply to desired areas and blend with patting movements with your finger or sponge.
