HAPPY BIRTHDAY, FABERLIC!

26 YEARS

FOR 26 YEARS WE'VE BEEN SURPRISING AND PLEASING OUR LOVED CUSTOMERS. AND WE KNOW FOR SURE - THIS IS JUST THE BEGINNING!

ALL THESE YEARS WE HAVE BEEN TRUE TO OUR THREE VALUES: BEAUTY, DEVELOPMENT AND COOPERATION. THEY HELP US GROW AND RESPOND IN HEARTS OF MILLIONS OF CUSTOMERS!

DEVELOPMENT

Development is Faberlic's perpetual motion machine. "Never stop there!" — in 2023 we expanded the laboratory by a quarter under this slogan. New jobs - even more innovation! We also continue to expand categories. The segment of health products is growing rapidly, both in cosmetics and dietary supplements. We see how new products in the **Home Medicine Kit** series are becoming truly loved by customers. And we continue to search for effective formulas and interesting formats to please you! A striking example of this was the **Smart Laundry** series in the Home Cosmetics category.

BEAUTY

In our series we reflect the world's best trends. In recent years, **Asia** has set the vector for the entire cosmetics industry, and Faberlic's assortment includes more and more new series in concepts of these hot trends. Further more! In 2023, we are adding an oriental flavor to the Asian charm. **The new series of Halal decorative cosmetics and scents of the latest collections** allow you to look at the world of the East from a completely new angle. And our products not only give beauty, but also look beautiful themselves.

Confirmation of this - **Home Gnome Greenly Laundry Biogel is the winner of the Best Russian Industrial Design in Household Chemicals category.** And, of course, beauty for us - for a long time now not only what's outside. Faberlic is actively developing **the Eco direction**, supporting global trend towards "green philosophy".

COOPERATION

We like to make friends and exchange experience! With our Consultants, suppliers and other manufacturers. A striking event of this year is the **opening of an exclusive workshop at the Svet glass factory in Mozhga (Udmurtia).** Here, up to 40 million premium glass perfume bottles will be cast especially for Faberlic. **The series of people's projects** became another successful project developed together with Leaders and Consultants. The best natural ingredients, large volume, and attractive price - these are three components of success of our new bestsellers. In addition, **Faberlic is included in the National Household Chemicals** in the context of holding.

26 YEARS OF SKIN BREATHING OXYGEN!

26 YEARS AGO FABERLIC FOR THE FIRST TIME USED THE DISCOVERY OF SOVIET SCIENTISTS IN COSMETICS - AN EMULSION BASED ON PERFLUOROCARBONS. HAVING PATENTED OXYGEN COMPLEX, WE CONSTANTLY IMPROVED THE SERIES BASED ON IT.

The year 1997 AQUAFTEM®

Unique system of oxygen transportation to the deep skin layers is still used in medicine. Products based on Aquaftem® strengthen local immunity of skin and have powerful rejuvenating and regenerating effects.

I
GENERATION

The year 2015 AIR STREAM

Novaftem-O2® is supplemented with an antioxidant effect thanks to thumerin molecules. The new complex effectively fights the action of free radicals, slowing down the aging process by acting in the deep layers of the skin.

III
GENERATION

II
GENERATION

The year 2007 NOVAFTEM-O₂®

There are two ways for oxygen to reach the skin: from the air and through the blood. To improve both of these processes, we have added microcirculation-enhancing molecules to Aquaftem®. The new oxygen complex is a breakthrough. It significantly improves skin condition, fights dullness and wrinkles, and actively heals micro-damage.

IV
GENERATION

The year 2017 OXIOLOGY

Oxygen drone technology made it possible to launch action of products in 4 directions at once: saturate skin with oxygen, enhance microcirculation, protect cells from harmful effects of free radicals and deliver oxygen namely to those cells that need it most. Oxiology Series is still in demand and loved by hundreds of thousands of our customers!

V
GENERATION

The year 2020 GLOBAL OXYGEN

The innovative Never Stop Energy technology has unlocked an endless source of energy for skin self-renewal. The formula is based on three components: Novaftem-O2® complex, vitamin C and glutathione, which increase the efficiency of converting oxygen into energy.

OVER 5 MILLION PACKS SOLD - A TRUE FABERLIC LEGEND! RECORD CONTENT OF OXYGEN COMPLEX IN THE COMPOSITION MAKES THE BALM INDISPENSABLE IN SKIN CARE.

Catch your ZEN!

Zen — the resource that can be used to boost up your sales. This social network is actively gaining momentum, the growth of new users is growing daily.

TO SEARCH AND ATTRACT NEW CUSTOMERS YOU CAN:

LEAD OWN ACCOUNT

gaining subscribers among clients, friends and acquaintances. And for this, it is not even necessary to write your own articles. You can simply add them by reposts from our official account, just like actual videos.

PROMOTE

due to your own creativity (shoot unpacking, write posts, make reviews, etc.).

MONETIZE

your account When you gain enough subscribers, it will also start working for your income on its own.

Bacteria in cosmetics: why you need them and how they work?

Import substitution: the best budget analogues of luxury products

Specifics of eye makeup for impending eyelid

Fashion and perfumery: how not to get caught on tricks of marketers?

We post a lot of interesting and useful information to the Faberlic Magazine account on a weekly basis:

Interesting **LIFE HACKS** with our products

Ready-made care programs and **RECOMMENDATIONS** for use of products

TREND REVIEWS in the world of fashion and cosmetics

Unexpected **FACTS** from the world of the beauty industry

Atmospheric **VIDEOS**

Expert opinions, **INTERVIEWS** about favorite series

REPORTS about significant events in company's life

Fun **TESTS** that help you look at well-known products from a new angle

Turmeric and its unusual properties for youthful skin

WHY DO YOU NEED COLLAGEN?

Collagen is the protein of youth. It is what makes the skin firm and tight.

After the age of 20, the skin loses up to 1% of collagen each year, and by the age of 40, the rate of reproduction of collagen fibers drops by half.

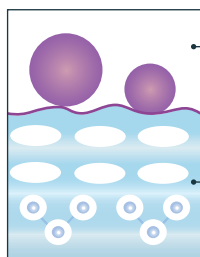

collagen O₂

YOUTH MOLECULES

pp. 2-3

HOW DOES IT WORK?

Large and medium molecules of living collagen (12250 kDa*) act on the surface and in the middle layers of dermis.

Collagen nanomolecules (0.67 kDa*) penetrate into deep layers thanks to the oxygen complex. There they activate production of their own collagen.

FABERLIC LAB INNOVATION

Regular collagen molecules are too large to penetrate skin barrier. Therefore, we took collagen **nanomolecules** that can penetrate deep layers **and joined them with**

oxygen complex that delivers them directly to collagen fibers, where the "youth mode" starts. Own collagen is restored!
Except for **nanomolecules** that

function inside derma, we use **live hydrogen collagen of I and III types** that functions in the higher and medium skin layers forming its frame and ensuring powerful lifting.

CLINICALLY CONFIRMED:

FOR **209%** OF THE SURFACE OF WRINKLES HAS REDUCED

FOR **175%** NUMBER OF WRINKLES HAS REDUCED

FOR **62%** CELL ACTIVITY INCREASED AFTER PHOTO DAMAGE

Night cream makes skin smooth, toned, elastic. Reduces number of wrinkles and strengthens protective barrier

Day cream fluid tightens skin and smoothes out wrinkles. Returns radiance to face and intensely moisturizes

Booster serum stimulates collagen synthesis, has a lifting effect, fights wrinkles

1381

1382

1393

Any for 600* **299***

pp. 4-5

Rimma Korneeva, Chief expert of the FABERLIC Research and Development Center, dermatocosmetologist, PhD in Medical Sciences

Collagen in most creams is only used as a moisturizing component. But we moved on! Faberlic laboratory has created a multi-molecular complex, which includes collagen molecules and nanomolecules and oxygen complex Aquaftem*. This synergy of active molecules helps to restore and maintain the functions of skin cells, strengthen the dermal-epidermal junction and

provide a powerful lifting effect. Live collagen molecules form a hydroframe on the skin surface that prevents moisture loss, nanomolecules activate the synthesis of the skin's own youth protein, and the oxygen complex accelerates cell metabolism, increases the amount of oxygen in the skin and ensures the delivery of active ingredients to the deeper layers.

The toner has a thicker texture, comparing to a regular tonic. It contains more active ingredients and additionally cares for skin. Saturates skin with moisture, evens out its tone and microrelief, replenishes collagen and returns tightness

SALON CARE

THE BENEFITS OF COLLAGEN FOR HAIR:

- MAKES THIN HAIR THICKER AND DURABLE
- GIVES VOLUME BY FILLING VOIDS IN THE DAMAGED STRUCTURE
- REDUCES FLUFFINESS AND ELECTRIZATION

COLLAGEN FOR DENSE HAIR

SALON CARE PRODUCTS WITH COLLAGEN MAKE HAIR DENSER AND THICKER

pp. 6-7

MULTIMOLECULAR COLLAGEN

ACTS AT THREE LEVELS AT A TIME

- **Low molecular weight collagen** penetrates hair structure and restores it
- **Medium molecular** – seals cuticle scales
- **High molecular weight** – acts on the surface, protecting and thickening hair

NEW PRODUCTS

CLINICALLY CONFIRMED:

FOR **50%** HAIR STRUCTURE HAS RESTORED

FOR **14%** HAIR THICKNESS HAS INCREASED

FOR **18%** HAIR DURABILITY HAS INCREASED

Apply compacting cream fluid to the entire length of damp hair and ends before drying, as well as a final care after styling. May be added to shampoo or balm to enhance their action

Alexander Ediger,
Director of Scientific
Development for
Wellness

"Modern man is active, traveling, communicating with everything around them - they inevitably face a number of common problems. These are chronic stress, accumulating fatigue, infections, often transmitted "on feet," disturbances in circadian rhythms — work, sleep, eating. Scientists have identified body systems that primarily become targets of these damaging factors. They were the nervous, cardiovascular (endothelium and capillary blood flow) and immune (development of chronic infectious processes) systems.

This view has acquired particular significance after the COVID19 pandemic, which has led to to the emergence of mass post-Covid syndrome. The development of our balm was aimed at covering the most important target points involved in this complex of problems, and their strengthening to prevent a wide range of diseases."

ATTRACTANT MOLECULES*

Atractolide has an intimate sound and gives the perfume depth. Exaltolide brings a sensual powdery note. Ambrox Super fills the composition with warmth. Romanolide - delicate and enveloping - arouses desire. Muscon sounds in an incredibly feminine tone.

*Substances of the musk family that cause attraction to the opposite sex.

Tools OF YOUR SALES

Gift Bags

If a client has placed a large order with you, pack it in a corporate gift bag. Such attention will please your client, and they will certainly return to you for another purchase!

Corporate materials

Corporate materials - product brochures, catalogs and price lists to help you navigate in the product range and tell your customers important information about it.

Product Samples

An important sales tool is product samples. They give a client the opportunity to more accurately determine which product suits them, and you look more professional and increase your sales. Please note that samples are not only for perfumery, but also for another products.

Color Charts

Offer your customers that buy Silky Coloring or Color Maximum dyes from you to refer to Color Chart (art. 8249 or 18053). By more accurately determining dye shade, the client will definitely return to you during the next promo!

BE YOUR BEST

How do I order catalog №15/2023 (16.10 — 05.11)

To get the catalog,
add it to your order: **90115**.

Prices, promos, and special offers,
indicated in the catalog are valid only upon purchase
at faberlic.com from 16.10 to 05.11.2023.

Product cost and availability may vary.
Check current prices at faberlic.com,
from Consultants and at Internet platforms
where company is presented officially.
